```
# load library rcompanion
library(rcompanion)

# create data vector
x= c(rnorm(10000))

# draw plot
plotNormalHistogram( x, prob = FALSE,
                     main = "Normal Distribution overlay on Histogram",
                     length = 1000 )
```
